

Email vote:

The Government of Canada has topped up the Canada Emergency Loan. We approved the original loan in this program and I am now asking for the Board's approval to top up.

Background information from Bruce Renwick:

The Federal Government just topped up the Canadian Emergency Loan account with another \$20,000.00 interest free of which \$10,000 is forgivable if paid back on time of which I have applied for.

Email vote was unanimous in favour.
